

SenSIP NSF Research Experiences for Teachers (RET)

Program Dates: Arizona State University: May 31 – July 1, 2022

Hybrid Summer RET Program

Program Benefits

- \$6000 Stipend
- Curriculum Development
- School Year Lesson Implementation Support
- Teachers learn how to program machine algorithms for analytics
- Teachers form lesson plans on machine algorithms and implement in their classes.

Program Eligibility

- U.S. citizen or permanent resident
- K-12 or community college STEM teacher/faculty
- Ability to work 40 hours per week for the entire 5-week program
- Teachers (or those serving students) from diverse groups traditionally underrepresented in STEM programs are encouraged to apply

Program Application

Applications due ASAP and will require the following:

1. A completed online application.
2. A brief resume/CV.
3. A professional letter of recommendation (department chair, principal, colleague, etc.).

RET Projects

Projects in Sensor & Machine Learning Applications

For details email to sensip@asu.edu

Application form at: <https://sensip.engineering.asu.edu/ret/>

The RET project is funded by NSF Award 1953745.
